We have now, practically everything in this price list; but as the season advances, some of the scarce items will naturally run short. We shall not substitute anything without first getting the permission of the customer.

We shall exercise every precaution to keep our plants true to name; but in case of error, shall not be held responsible for anything more than the original purchase price.

GUARANTEE: Since it is impossible for us to supervise the planting and care of all our plants, we cannot guarantee our plants to grow. We do guarantee that they must be satisfactory upon time of delivery or we will cheerfully refund their purchase price upon the return of the plants.

Upon request, we shall be glad to send a representative within a reasonable distance to help with your planning problems.

We cordially invite you to visit our nursery. A great deal of disappointment is often avoided by such a visit. There is nothing equal to the personal selection of plants. Bring along a group of friends.

We are equipped to make lawns and shall be glad to give an estimate within a reasonable distance from Goldsboro.

Plants personally selected from the nursery rows will be charged for according to their value, without regard to the prices in this list.
